

Open Source Software (OSS)

Open source licence

Components of this software may be free and open source software. Some of these components may include open source software that is licensed under terms which require the supply of source code upon request. You can obtain copies of this source code at www.porsche.com. Where physical copies of source or object code are required under specific licences, you can obtain these by contacting us through the above link. A nominal fee, accounting for the cost of physically performing the source distribution, will be charged for this service.

The copyright holders generally do not provide any warranty and assume no liability whatsoever with regard to the free and open source software components. Please note that any modification to the software may void any warranty claim.

Please select the open source packages listed below to view further information on the applicable licence and copyright information. These packages may include subfiles licensed under other licences or additional copyright information. You can access this information by selecting the file

Open source licence

The software in this product may be updated from time to time. Therefore, the licence information below may change. Your copy of this product may not contain code covered by one or more of the licences listed here, depending on the exact product and version you choose.

Please contact us through the above link if you require further assistance in relation to any of the above.

The following package operating in this product uses code licensed under MIT License. Please select package to see relevant licence details.
